

# SOUTH CAROLINA ARREST DATA

## **ROUNDING**

Percentages shown in the tables and charts may not add to 100% due to rounding. Rates per 10,000 population and percent changes also have been rounded.

# ARREST DATA

The Uniform Crime Reports Program requires a daily reporting of data concerning persons arrested in the state. Records of arrests for criminal acts in all crime classes are received from state, county and municipal law enforcement agencies in South Carolina and are classified by offense category and arranged according to age, sex and race of persons arrested. Traffic arrests, except driving under the influence, are not reported. A total of **220,337** arrests for all crimes was reported during **2006**, a **1.1** percent decrease over **239,298** arrests reported for the year 2005.

A person is counted on the arrest report each time he or she is arrested or summoned. It should be kept in mind that the volume of arrests may vary from time to time due to differences in local arrest procedures and policies. It should be noted that a person may be arrested several times during a given month for different offenses. This occurs frequently for such crimes as public drunk, disorderly conduct and similar violations. A juvenile is counted as "arrested" when the circumstances are such that, if he or she were an adult, an arrest would be counted when law enforcement or other official action is taken beyond a mere interview, warning or admonishment.

When reviewing arrest figures, it should be remembered that arrest counts do not reflect the specific number of persons arrested since, as has been pointed out, one individual may be arrested several times during any given month or year. However, arrest data are useful in measuring the extent of law enforcement activity in a given geographical area, as well as in providing an index for measuring involvement in criminal acts by the age, sex and race of the offenders.

Analysis of reported arrests for the year **2006** indicates that **16.5** percent of arrests during the year were for Index offenses (murder, forcible rape, robbery, aggravated assault, breaking or entering, larceny, and motor vehicle theft). Arrests for larceny comprised the highest percentage of Index arrests, amounting to **48.5** percent, while arrests for simple assaults comprised **12.0** percent of Non-Index arrests. Persons arrested for alcohol and Drug violations (drug laws, DUI, alcohol laws, drunkenness) accounted for **36.8** percent of all arrests made during the calendar year **2006**.

## NOTE TO THE READER REGARDING DRUG ARRESTS

Prior to 1991, the UCR program did not have a specific category for drug equipment violations. Such arrests were counted under "All Other". From 1991 forward, all "Drug Law" arrest counts will include those arrests for drug equipment and paraphernalia violations.

**SOUTH CAROLINA  
ARREST CLOCK  
2006**

one  
**ARREST**  
every **2** minutes, **23** seconds

one  
**INDEX CRIME ARREST**  
every **14** minutes, **25** seconds

one  
**VIOLENT INDEX CRIME ARREST**  
every **43** minutes, **54** seconds

one  
**NONVIOLENT INDEX CRIME  
ARREST**  
every **21** minutes, **28** seconds

one  
**NON-INDEX CRIME ARREST**  
every **2** minutes, **51** seconds

The arrest clock should be viewed with care. Being the most aggregate representation of arrest data, it is designed to convey the annual reported arrest experience by showing the relative frequency of occurrence of all arrests. This mode of display should not be taken to imply a regularity in arrests; rather, it represents the annual ratio of arrests to fixed time intervals.
