INCIDENT REPORT INSTRUCTIONS

Released by:  South Carolina Law Enforcement Division

Revised 11-04-04

Note: Most information in “check boxes” should be supported by narrative text.
INCIDENT REPORT GUIDE

1 Agency I.D., ORI
   Preprinted, Required

2 Case Number, OCA
   *Required
   Must be the same OCA on the Incident Reports as on
   the Supplemental and Booking Reports. Must be written exactly the same
   (same number of dashes, zeros, etc.) each time. Can only be used for one
   incident/event.

3 NCIC Inquiry
   Initial here if an NCIC inquiry has been made on person, vehicle, or other
   item.

4 NCIC Entered
   Initial here if an NCIC entry has been made on person, vehicle, or other
   item.

5 Incident Type
   *Required
   Write here in descriptive terminology the types of
   incidents or events. Be sure to note on all Aggravated Assaults and
   Homicides the circumstances surrounding the crime insofar as you can
   determine them. Describe these circumstances in general descriptive
   terminology (Examples: Murder - Lovers’ Quarrel; Murder - Drug Dealing –
   Juvenile Gangs; ABHAN - Argument Over Debt; ABWIK - Domestic
   Argument;

   Aggravated Assault - Juvenile Gangs - Argument Over Drug Territory; ABHAN
   Argument over pool game. See attached table and appendix.)

   Also note the type of criminal activity involved in an offense. For instance,
   rather than just writing “Drug Offense” or “Cocaine”, you should use
   descriptive terminology such as “Possession With Intent to Distribute
   Cocaine”; “Simple Poss. Marijuana”; “Growing Marijuana”; Carrying
   Concealed Weapon”; “Unlawful Sale of Handgun”; “Operating a Gambling
   House”; “Sale of Pornography”; “Receiving Stolen Goods”; etc.

   In Larceny cases, you should also state the type of Larceny. Instead of
   writing “Larceny”, or “Petty Larceny”, or “Grand Larceny”, you should
   write “Shoplifting”, “Purse Snatching”, “Larceny of Vehicle Parts”, “Motor
   Vehicle Theft”, “Auto Theft”, etc.

   (Note. If there are multiple “incident types” in this event and multiple
   victims, the name of each victim should be listed beside the Incident Type
   which applies to the victim):
   Murder – J. Smith
   Rape – K. Smith

6 Completed
   *Required
   Either YES or NO box must be checked on all
   Incident Types to note whether the offense was completed or only
   attempted. (Note: Attempted Homicide should be shown as completed
   Aggravated Assault).
7 Forced Entry  
*RequiredEither YES or NO box must be checked to indicate whether there was Forced Entry into a **structure or a vehicle**. The use of an unauthorized key or plastic device to gain entry to a structure is considered Forced Entry.

(Note: If there is an attempt to forcibly enter a structure or vehicle, but the entry is not completed, the “Completed” box should be marked “No”, and the “Forced Entry” box should be marked “Yes”.)

8 Premise Type  
*RequiredUse terminology that best describes the premise or surroundings of the event location. (Example: Single Residence, Apartment, Rural Road, Nightclub, Wooded Area, Church, Mall Parking Lot, etc.) Use the most precise description of the premise. Instead of “Parking Lot”, write “Mall Parking Lot”, “Church Parking Lot”, or “School Parking Lot”, instead of “Commercial”, write “Supermarket”, or “Bank”, or “Convenience Store”, etc. Remember that “Auto” is not a Premise. Where the auto is parked is the Premise.

9 Units Entered  
*RequiredTo be used whenever the Incident Type is an Unlawful Entry or Forcible Entry of a Hotel, Motel, Boarding House, or Multiple Storage Unit (Mini-warehouses). Not used for apartments or condominiums, since they are permanent individual dwellings.

10 Victim Type  
*RequiredCheck one (1) Victim Type. Multiples should be avoided unless more than one is truly needed to describe the victims. Whenever a full-time business is the target of a crime, the Victim Type should include “Business”, even though it is owned and operated by a single individual or family. **Individual** victims must also be reported whenever a business, financial institution, etc. is the primary victim of a Robbery.

11 Incident Location  
The address of, or directions to, the location where the incident/event occurred.

12 Zip Code  
Zip Code of the Incident Location.

13 Weapon Type  
*RequiredFor any incident/event where a **weapon or force is used or its use is threatened**, or where a weapon is **displayed in a threatening manner**. This box should indicate **any** object used as a weapon. Hands, feet, etc. are to be listed as weapons (not as “unarmed” or “none”).

**DO NOT** enter a weapon found at a scene or in the possession of a subject **UNLESS** the weapon was used to assault or kill, or its use was threatened.

Weapons are described in general terminology here – “Handgun”, “Shotgun”. Details, such as S&W Model 19, go in the Narrative.
**Full-Auto, Semi-Auto:** If a firearm operates as “semi-automatic” or “full-automatic”, this must be shown by adding the terms “semi” (or “S”), or “full auto” (or “A”); e.g. “Pistol-semi”, “Shotgun-semi”, “Rifle-full auto”, “Rifle-S”, etc..

The Weapon Type must also be shown for any federal, state, or local Weapon Law Violations.

14 Incident Date

*Required

The date on which the incident/event/crime occurred (insofar as it can be determined). This is not the date the officer or agency was notified, dispatched, or arrived at the scene. Must be written as month, day, year.

15 Incident Time

*Required

The time, written in the 24 hour clock, at which the incident/event/crime occurred (insofar as it can be determined). This is not the dispatch or arrival time.

16, 17 “To” Date & Time

*Required

If it is not possible to determine the date and time that an incident/event/crime occurred, but it can be said to have occurred between a beginning date and time and an ending date and time, then write the ending date and time here. (Example: 11-10-02, 0800, “To” 11-14-02, 1800.)

18, 19 Dispatch Date
20, 21 Time

These are the proper boxes to record the date and time of dispatched, the time an officer arrived on the scene, and the time an officer left the scene.

22 Location Number

While not required, it is strongly suggested that the Location Number be (Tract, Patrol Area, etc.) entered here. This box is for a locally assigned number designating a patrol area, census tract, block number, etc. It may be up to five (5) characters long. It must be written the same way each time. For example, the number “A-100” must not be written as “A/100” or “A100”.

23-36 Complainant

**IMPORTANT** If the complainant is the same person as the Victim, this segment should be left blank except for the words “Same as Victim”, or “See Victim”.
The Complainant segment and the Victim segment are NOT interchangeable. Information must NOT be split between the two segments. The Victim segment is required.

The Complainant segment must not be used for Victim information.

However, boxes 23-36 are filled out in the same manner as described for the Victim (boxes 37-45 and 51-55).
Note: If there are multiple Victims, each one must be given a separate sequential number from 01-99.

37 Victim’s Name

The name of the person, business, organization, etc. that is the actual Victim. For example, if a private home is Burglarized, the Victim will be an individual, such as John Doe. If a department store is burglarized, the Victim will be the business, such as K-Mart. If a business is Robbed, the business itself will be listed as a Victim; additionally, all persons who were Victims of the Robbery will also be listed as individual Victims.

38 Relationship to Subjects

*Required Whenever the Victim is an individual, (or police officer) the Relationship box must be filled in. Relationships must be as specific as possible.

If the Victim is the Spouse of the subject, you must use “Spouse”, not just “family”.

Likewise, if a Victim is a “Girlfriend” or “Employee” of the Subject, those terms must be used rather than just “Acquaintance”.

NOTE: “Acquaintance” must not be used as a “catch-all” for “Friends”, “Boyfriends”, etc. Be specific!

“None” is not a valid relationship.

The Relationship must always be given in the direction of Victim to Subject. For example, if a father assaults his daughter, the Relationship of the Victim to the Subject will be “daughter”, not the other way around.

If there are multiple Subjects, give the Relationship of each Victim to each Subject.

(Note: Some officers mistakenly believe that this box is asking for the relationship between the reporting officer and the Subject. This is not correct (unless the officer is a victim of an officer assault). The Relationship required is that of the Victim to the Subject.)

39 Resident

*Required Circle the letter which best describes the residency status of the Victim.

J If the Victim is a Resident of your primary jurisdiction, circle “J”. (For county officers, this means unincorporated areas, or towns with no full-time police forces. For state officers, the county is considered the primary jurisdiction.)
If the Victim is a Resident of South Carolina, but not of your primary
jurisdiction, circle “S”.

If the Victim lives outside of South Carolina, circle “O”.

If you are unable to determine where the Victim lives, circle “U”. (There
very few of these).

*Required Whenever the Victim is an individual (or police
the Race box must filled in with one of the codes below:

NOTE: “Hispanic” is not a Race category. See “Ethnicity”, below.

W - White (Europe, Middle East, N. Africa) (Persons sometimes called
“Latino”, “Mexican” or “ Cuban” are often coded “W”.)

B - Black (Africa - south of Sahara Desert; usually African American)

I - American Indian, Native American, Alaskan Native

A - Asian/ Pacific Islander ( Orient, China, Japan, Vietnam, India,
Pakistan, Hawaii, etc.)

U - Unknown (Should be used only if body is too decomposed to
determine a race)

*Required Whenever the Victim is an individual or (police
the Sex box must be filled in with one of the codes below:

M - Male
F - Female
U - Unknown (Should NEVER be used UNLESS a body is too decomposed
to determine the sex.)

*Required Whenever the Victim is an individual (or police
the Age box must be filled in with a valid age. If the Victim age is
both numerals for the Age must be written on the left side of the slash.

If only an Age Range is known, then both numerals of the first age must be
written on the left side of the slash, and both numerals of the last age must be
written on the right side of the slash (i.e., 25/30). Age ranges should be used only
have some value to law enforcement (e.g. 13/15, 30/40, 65/70). Very wide age ranges such as 20/60, 15/30, or 01/99 are of little practical value, and should instead be written as “00” or “Unknown”.

If the Victim is less than one year old, the Age must be written as one of the codes below (If the exact age needs to be written in hours, days, weeks, or months, that can be done in the narrative.):

NN - Less than 24 hours old
NB - 1 to 6 days old
BB - 7 to 364 days old

Unknown Age:
00 - Unknown Age (There should be very few of these.) Unknown age must not be written as “01-99”.

43 Ethnicity

*Required Whenever the Victim is an Individual (or police officer), the Ethnicity box must be filled in with one of the codes below. The Ethnicity of the Victim must be given in addition to the Race. It refers only to Hispanic ethnic origin. There are no firm guidelines for determining whether a Victim is of Hispanic ethnic origin, so an officer must rely upon whatever observable factors are available. “Hispanic” is not an allowable Race code.

H - Hispanic Origin – A person of Mexican, Puerto Rican, Cuban, Latino, South American, etc. culture, REGARDLESS of Race.

N - Not of Hispanic Origin

U - Unknown

44-45 Daytime and Evening Telephone Numbers

Circle “H” or “B” to indicate Home or Business telephone numbers.

46-50 Victim Description or unidentified bodies.

To be used when appropriate, but especially when reporting missing persons

46 Height

Victim’s Height should be written as a three-numeral field, (i.e., five feet eleven inches should be written as 511; six feet two inches should be written as 602).
47 Weight

Victim’s Weight should be written as a three-numeral field, in pounds (i.e., ninety-eight pounds should be written as 098).

48 Hair

Victim’s hair color should be written in a clear abbreviation. NCIC abbreviation is preferred.

49 Eyes

Victim’s eye color should be written in a clear abbreviation. NCIC abbreviation is preferred.

50 Further Description

If it is necessary to describe a Victim in detail, this box provides space to describe facial hair, scars, tattoos, clothing, speech peculiarities and accents, or any other physical characteristics, etc. The Narrative portion can be used if further description is necessary.

AKA’s can also be put in this box.

51-54 Address

Victim’s full address, including Zip Code.

55 Location Number

Just as box 22 gives the Location Number for the location of the incident, this box can be used to give the location of the Victim’s home address if it is within your jurisdiction.

56 Visible Injury

*Required Whenever the Victim is an individual (or police officer), and is the Victim of a violent crime or crime against a person (such as simple assault, aggravated assault, ABHAN, ABWIK, murder, sex offense, robbery, kidnapping, or the threatened use of a dangerous weapon, etc.), the Visible Injury box must be filled in.

An officer must check either “Yes” or “No” to indicate whether there are injuries which are apparent to him or her. If “Yes” is checked, the officer must briefly describe the apparent injuries (e.g. broken left forearm, three front teeth knocked out, deep cut on right calf, gunshot wound to head, multiple stab wounds to the abdomen, etc.).

An officer is expected to describe only those injuries which are apparent to him or her, or injuries described by medical personnel, or serious internal injuries described clearly by the Victim or medical personnel (always make notation of the names of medical personnel).

An officer is not expected to make guesses or statements which he or she can not support.

Check “Yes” or “No” to indicate whether a Victim is complaining of non-visible injuries. (Agency option.)

57 Alcohol, Drug Use

*Required Check “Yes”, “No”, or “Unknown” to indicate whether the Victim was using Alcohol or Drugs at the time of the incident (or shortly before).

The officer is not being asked to guess or make statements which he or she can not support. Therefore, when there is no clear indication that a Victim was using Alcohol or Drugs at the time of the incident, the officer
can check “No” or “Unknown”, according to departmental policy. (“No” can be interpreted to mean “no indication”).

**Type (Drug)**

If the Victim was using drugs, the officer can write the Drug Type here if known. (Type is an optional field.)

---

**58 Police Officer Assignment**

*Required* If this incident report describes an assault on a police officer, this segment must be filled in. This information is required for any report of an officer assaulted (even if there is no injury), or when an officer is threatened with a dangerous weapon.

*(NOTE: Even though an incident report may be primarily concerned with reporting a crime such as robbery, disorderly conduct, or domestic assault, any police officer who is assaulted during the event must be reported as one of the Victims. (This information is important to your agency and the S.C. Criminal Justice Academy in their efforts to develop training designed for officer safety.)*

**Two-Officer Vehicle**

The Victim officer was in uniform and on duty in a vehicle carrying two or more officers.

**One-Officer Vehicle**

The Victim officer was in uniform and on duty in a vehicle in which he or she was the only officer.

**Detective/Special Assignment**

The Victim officer was on detective, undercover, or other special assignment.

**Other Assignment**

The Victim officer was on duty in some capacity not shown above, such as foot patrol, mounted patrol, water patrol, or was otherwise acting in an official capacity as a police officer, such as security guard, etc., or off-duty emergency.

*(NOTE: If an officer is assaulted or threatened, one of the four choices above must be checked.)*
Alone Officer

The Victim officer was not assisted by any other Law Enforcement officer at the time of the incident.

Assisted

The Victim officer was assisted by another Law Enforcement Officer at the time of the assault.

59 J, S, O, U

This box briefly defines the residency codes as shown in box 39 (Resident), above. County officers should circle “J” only when the Victim lives in an area of the county that is not serviced by a town or city police department.

60 Subject Status

Check one or more boxes to describe the current status of the Subject.

61-76 Subject (Suspect, Offender) Data

This information is filled out exactly like the boxes in the Victim Segment (37, 40-55).

*Required Boxes 62-65, Race, Sex, Age, and Ethnicity are required information. If one or more of these fields is impossible to obtain, fill in the unknown Race, Sex, and Ethnicity with “U”, and unknown Age with “00”. (There should be few of these, especially in violent crimes.)

77 Alcohol, Drug Use

*Required Check “Yes”, “No”, or “Unknown” to indicate whether the subject was using Alcohol or Drugs at the time of the incident or shortly before). The officer is not being asked to guess or make statements he or she can not support. Therefore, when there is no clear indication that a Subject was using Alcohol or Drugs at the time of the incident, the officer can check “No” or “Unknown”, according to departmental policy. (“No” can be interpreted to mean “no indication”.)

If an officer knows what kind of Drug a Subject was using, he or she can write in the Drug Type. (Type is not a required field.)

78 Arrested Near Offense Scene

The interpretation of the work “Near” is a matter of judgement. “Yes” or “No” may be checked.

79 Date/Time of Offense

To be used if this Incident Report is describing something other than the original incident, such as a warrant service or a recovery made some time after the original Incident was submitted. This field refers to the date and time of the original incident or crime.

80 Date/Time of Arrest

To be used if this Incident reports that the Subject was arrested at a date or time after the actual crime. (Agency option.)
The narrative should describe the details of what an officer has learned about the incident/event/offense. The “Who”, “What”, “When”, and “Where” have already been described above. The narrative should tell, insofar as the officer can determine, the “How” and “Why” of the incident.

(Detailed information that can not be put in the other segments of the Incident Report can be put in the Narrative. E.g. descriptive details of victims or subjects, serial numbers, vehicle descriptions, etc.)

**Gang Information:** While there is no specific “check box” for Gang Activity, SCIBRS requires that crimes related to gang activity be clearly identified and reported. Information known to officers that identify an incident as gang-related should be included in the narrative.

**Definition of a Gang:**
An ongoing organization, association, or group of three or more persons who have common interests and activities characterized by involvement in a pattern of criminal or delinquent conduct. (An organized group that commits crimes on a regular basis.)

If applicable, **must** be included with:
- Homicide
- Kidnapping/Abduction
- Robbery
- Sex Offenses
- Assaults, Threats/Intimidations

The codes are meant to identify any violent crimes that are the result of violent gang activity. **Required** by SCIBRS for all violent crimes. Should be included in reports of any criminal activity, violent or not.

- Adult gang activity
- Youth (street) gang activity
82 Jurisdiction of Theft

If this incident report describes the theft of property, write in the name of the law enforcement agency which reported the item stolen, whether it is your agency or another.

83 Jurisdiction of Recovery

If this incident report describes the recovery of stolen property, write in the name of the agency which recovered the property, whether your agency or another.

84 Property Type

*Required These six boxes are used to describe property which has been stolen, damaged, burned, recovered, or seized. Property must be grouped by Type (see handout for property types). Do not list individual items in this section (They can be listed in the Narrative or on a Supplemental).

Examples: If two watches, one ring, and three necklaces are stolen, all the items must be grouped under one box labeled “Jewelry”. If two six-packs of beer, five apples, and three cans of shaving cream are stolen, the items must be grouped under one box labeled “Consumable”.

85 Stolen Values

*Required Once items have been properly grouped, the estimated loss must be written in whole dollars (no decimals). Estimates should be made at current fair market values (or at wholesale prices for retail businesses).

(This category also includes bribery, embezzlement, fraud, extortion, ransoms, robbery.)

NOTE: To save space, the category of “Counterfeited/Forged” is included with “Stolen”. Please strike through “Stolen” and write in “Counterfeit” or “Forged”, if applicable.

86 Damaged Values

*Required The estimated dollar amount of property damaged in Vandalisms should be entered. The amount of damage done to property or items in the commission of other crimes should also be estimated here. Reasonable estimates should be used. Property must first be properly grouped.

87 Burned Values

*Required Estimates of property damaged by arson or other unlawful burning or explosions should be written here. Property must first be properly grouped. Reasonable estimates should be used.

88 Recovered Values

*Required Once items have been properly grouped, the estimated values of each group of recovered property should be written in whole dollars. The estimated recovery value of any item or group of items should be made at the fair market value of the property at the time of recovery.

Example: A motor vehicle valued at $20,000 is stolen. When it is recovered two days later, it has been stripped of the engine and other parts. Recovery value, $1500.
89 Seized Values: *Required The estimated value of property seized by your agency in incidents such as drug raids, gambling raids, etc. All seized property must be properly grouped, just like stolen and recovered property.

**SPECIAL NOTE ON DRUG SEIZURES** Whenever illegal drugs are seized by your agency, whether in small or large quantities, the following procedures must be used:

Drugs must be grouped according to Drug Types (see handout) and listed in the Property Type boxes (#84, above). Your decision on the Drug Type should be based on your agency’s normal procedure for determining drug types for arrests and charges.

Under each Drug Type grouping, an estimate of the QUANTITY of each drug should be written in the “Seized” box. The estimated quantities may be written in pounds, ounces, grams, kilograms, dosage units, number of plants, etc. Use your agency’s standard procedure for estimating drug quantities. If a lab report is required before estimating, be certain to update the Incident Report or submit the estimate on a Supplemental.

(Do not put the dollar value of drugs seized in this section.)

90 Total Values *Required Total each line, 85-89. If the property group runs over to a Supplemental Report, save the total for that page. (Drug quantities do not need to be totaled.)

91 Subject Identified *Required Has a Subject/Offender in this case been identified to the degree that charges could be brought against him or her?

92 Subject Located *Required Has a Subject/Offender in the case been located, so that it would be possible to apprehend him or her right away if charges were filed? (By your department, or by another police department.)

93-95 Case Status *Required Check the boxes which describe the current Case Status.

Active Still under Active investigation.

Administratively Closed The case is not cleared, but is no longer under active investigation. (Agency Option.)

Unfounded Check this box only if this case was discovered to have been a false or mistaken report, or if it is discovered to have happened in another reporting jurisdiction. Very few of these.

 Arrested Under 18 If One or More of the persons arrested is under 18 years of age, check here.

Arrested 18 & Over If ALL persons arrested in connection with this case are 18 years of age or older, check here.

Exceptionally Cleared Under 18 If no arrest is going to be made, but at least one offender has been identified and located (see boxes #91 and #92, above), and there is sufficient probable cause
for an arrest, and there is a reason beyond law enforcement control that an arrest will not be made (see #96, below), then check here if One or More offender is under 18 years of age.

<table>
<thead>
<tr>
<th>Exceptionally Cleared</th>
<th>The same as above, except that ALL offenders are 18 &amp; Over.</th>
</tr>
</thead>
<tbody>
<tr>
<td>96 Reason for Exceptional Clearance</td>
<td>*Required If the case is exceptionally cleared. Only one box may be checked.</td>
</tr>
<tr>
<td>Offender Death</td>
<td>The offender in this case is dead.</td>
</tr>
<tr>
<td>No Prosecution (By the Prosecutor)</td>
<td>An offender has been identified and located, and there is sufficient probable cause to support charges, but the court or solicitor has decided not to prosecute.</td>
</tr>
<tr>
<td>Extradition Denied</td>
<td>Extradition of an offender is denied. (Includes persons in prison in S.C.)</td>
</tr>
<tr>
<td>Victim Declines Cooperation</td>
<td>An offender has been identified, located, and there is probable cause to support an arrest, but the victim declines to cooperate in the prosecution.</td>
</tr>
<tr>
<td>Juvenile/No Custody</td>
<td>A juvenile is identified as the offender, but he or she is not taken into custody. The case is handled by parents/guardians and law enforcement. There is no custody, apprehension, or referral to family court, etc. (Note: if a juvenile is taken into custody, summoned, petitioned to family court etc., then a Juvenile Arrest Report must be sent to SLED, even if the juvenile is not formally charged or jailed.)</td>
</tr>
</tbody>
</table>

**SPECIAL NOTE** An incident can not be exceptionally cleared unless the subject’s Race, Sex, Age, and Ethnicity are placed in boxes 63-65. Any Supplemental Reports meant to Exceptionally Clear prior cases must include the Age, Sex, Race, and Ethnicity of Subjects, (unless they were given on the original Incident Report.)

| 97-103 Administrative Information | Self explanatory. |
SCIBRS Tables

The tables listed below show the reporting information required for SCIBRS reporting/coding requirements. In most cases, the codes are not shown, since officers normally use text in completing incident reports. The use of codes as part of an officer’s written incident report is discouraged, since SCIBRS codes compress and abbreviate information for statistical reporting, and can lead to confusion or loss of information when introduced in court or other criminal justice information sharing situations.

Livestock (living farm-type animals, e.g., cattle, chicken, hogs, horses, sheep, etc., but not household pets, such as dogs and cats)

Merchandise (items for sale which do not fit any other category **NOT A “CATCH ALL”!)**

Money (legal tender, e.g., coins and paper currency)

Negotiable Instruments (any document, other than currency, which is payable without restriction, e.g., endorsed checks, endorsed money orders, and endorsed traveler’s checks; “bearer” checks and bonds, etc.)

Nonnegotiable Instruments (documents requiring further action to become negotiable, e.g., unendorsed checks, unendorsed money orders, etc.; food stamps, stocks and bonds, etc.)

Office-type Equipment (typewriters, adding machines, calculators, cash registers, copying machines, etc.)

Other Motor Vehicles (any other motor vehicles, e.g., motorcycles, motor scooters, trail bikes, mopeds, snowmobile, golf carts, etc.)

Purses/Handbags/Wallets

Radios/TVs/VCRs (include radios, televisions, videotape recorders, high fidelity and stereo equipment, compact disk players, etc.)

Recordings-Audio Visual (phonograph records, compact disks, tape recordings, cassettes, etc.)

Recreational Vehicles (motor vehicles which are specifically designed, but not necessarily used, to transport people and also provide them temporary lodging for recreational purposes)

Structures-Single Occupancy Dwelling (houses, townhouses, duplexes, mobile homes, or other private dwellings which are occupied by a single person, family, housemates, or other group)

Other Dwellings (any other residential dwellings, e.g., apartments, tenements, flats, boarding houses, dormitories, as well as temporary living quarters, such as hotels, motels, inns, etc.)

Structures-Other Commercial/Business (stores, office building, restaurants, etc.)

Structures-Industrial Manufacturing (factories, plants, mills, etc.)
Page three
Property types cont..

Structures-Public Community (colleges, hospitals, jails, libraries, meeting halls, passenger terminals, religious buildings, schools, sports arenas, etc.)

Structures-Storage (barns, garages, storehouses, warehouses, etc.)

Structures-Other (any other structures not fitting the other “structures” descriptions, e.g., out-buildings, monuments, buildings under construction, etc.)

Tools (hand tools and power tools)

Truck (motor vehicles which are specifically designed, but not necessarily used, to transport cargo)

Vehicles Parts
Accessories (motor vehicle batteries, engines, transmissions heaters, hubcaps, tires, manufacturers’ emblems, license plates, side mirrors, radios, antennas, tape decks, etc.)

Boats/Watercraft (motorboats, sailboats, houseboats, etc.)

Other (all other property not fitting the above specific descriptions; this category MUST NOT be used as a “CATCH ALL” when more specific categories are available)

Pending Inventory (property description unknown until an inventory is conducted; this category MUST be updated as soon as the victim’s inventory is completed.)
Location Type

Apartments, Condominiums
Air/Bus/Train Terminal
Bank/Savings and Loan (includes other financial institutions)
Bar/Night Club
Church/Synagogue/Temple (includes other religious buildings)
Colleges/Universities (include college dorms)
Commercial/Office Building
Construction Site
Convenience Store
Department/Discount Store
Drug Store/Doctor’s Office/Hospital (includes medical supply building)
Field/Woods
Government/Public Building
Grocery/Supermarket
Highway/Road/Alley (includes street)
Hotel/Motel/Etc. (includes other temporary lodgings)
Jail/Prison (includes penitentiary)
Lake/Waterway
Liquor Store
Parking Lot/Garage **This premise type REQUIRES a second premise code to state what kind of Parking Lot.
Rental Storage Facility (includes “mini-storage” and “self-storage” buildings)
Residence/Home (includes nursing home)
Restaurant (includes cafeteria)
School **(Grades K – 12 ONLY) (Code 26 = College/Universities)
Service/Gas Station
Malls/Shopping Malls
Specialty Store (includes fur store, jewelry store, dress shop, etc.)
Other/Unknown
Highway Rest Areas (NOT picnic areas)

NOTE: A motorized vehicle of any sort IS NOT a valid location/premise. The location of the vehicle (Residence, Church Parking Lot, etc.) is to be entered as the premise.
**Type of Injury**

These categories indicate the general information SCIBRS needs to determine from the officer’s description of the injuries. Officers are encouraged to make full descriptions of injuries, even if this means referring the information to the narrative.

None**

- Apparent Minor Injury - no medical aid expected by a reasonable person**

- Apparent Broken Bones - medical aid expected by a reasonable person

- Possible Internal Injuries - medical aid expected by a reasonable person

- Severe Laceration - medical aid expected by a reasonable person

- Other Major Injury - medical aid expected by a reasonable person

- Unconsciousness - knocked out – NOT fainting

Loss of Teeth

“Medical aid” in the table above means that a reasonable person would seek or expect medical aid, even if the victim refused medical aid.
**Relationships**

The Relationship of each Victim to each Subject/Offender must be given. Relationships must be given as the most specific one available. Do not use certain Relationships as “catch-alls”. E.g. do not use “Acquaintance” as a “catch-all” for good friends, neighbors, boyfriends, employees, etc.

**Within the Family**
- Spouse
- Common Law Spouse – Includes “ex”
- Parent
- Sibling
- Child
- Grandparent
- Grandchild
- In-Law
- Step-parent
- Step-child
- Step-sibling
- Other Family Member (specify)

**Outside of the Family but Known to Victim**
- Acquaintance - Casual - Not a Friend or Neighbor - **Not a “Catch-all”**
- Friend - Close relationship – more than casual Acquaintance
- Neighbor
- Babysitter
- Boy/Girlfriend - Includes “ex” - **More than a casual date**
- Child of Boy/Girlfriend
- Homosexual Relationship – Includes “ex”
- Ex-Spouse
- Employee
- Employer
- Offender was Otherwise Known to the Victim

**Not Known by Victim**

**Stranger** - Victim was a Stranger to the Subject/Offender (Your investigation has determined that the Victim and Offender **DID NOT KNOW EACH OTHER.**)

**Unknown Relationship** – The Relationship between the Victim and the Subject/Offender is Unknown (Your investigation **CAN NOT DETERMINE** whether the Victim and Offender knew each other.)

**Other**
Victim was also Offender (Used in mutual attacks. Often used in CDVs.) Officer was unable to determine a primary offender.

*(This is not technically a relationship. It is more a SCIBRS statistical category to be determined by the final SCIBRS coder after analyzing the entire content of the report.)*
Type Weapon/Force Used

If more than one weapon or type of force was used, the officer may note that the weapon/force information will be on the first line of the Narrative.

Firearm (type unknown) (Do not use this as a “catch all”.)
- Handgun
- Rifle
- Shotgun
- Other Firearm (machine gun, mortar, etc.)
- Knife/Cutting Instrument (ax, screwdriver, knife, broken glass, etc.)
- Blunt Object (club, hammer, baseball bat, etc.)
- Motor Vehicle (when used as weapon)
- Hands, etc. (hands, fists, feet, teeth, etc.) This must be listed as a weapon type. Do not use “None” for hands, etc.
- Poison (not gas)
- Explosives
- Fire/Incendiary Device
- Drugs/Narcotics/Sleeping Pills
- Other (any weapon or force not fitting the above listed weapons)
- Drowning
- Strangulation/Hanging/Suffocation/Gas/etc.
- Pushed/Thrown From High Place
- Unknown (rarely used)
- None (where no weapon of force was used; do not include hands, etc. in this category)

NOTE: Officers – use words similar to those above when describing weapons or force. Do not use detailed descriptive terms such as “S&W Model 59”, since coders and records personnel may not know what kind of weapon a Model 59 is. Detailed weapon descriptions should be put in the Narrative.

Full-Automatic or Semi-Automatic Firearms

If a firearm is Full-Auto or Semi-Auto, that fact must be clearly noted in the Weapon box, using terms such as:
- Full-auto
- Semi-auto
- Semi
Bias Categories
These categories will be determined by the investigation.

If an investigation indicates that a crime was motivated “in whole or in part” by bias against a religious, racial, ethnic, sexual orientation, or disability group, then it should be reported as a Bias Motivated incident.

All law enforcement agencies should have one or more officers designated as bias crime reviewers. These officers should be trained in the recognition of bias motivated incidents, and should review all suspected bias crimes. (SLED and the FBI jointly provide this training annually.)

</table>

* Crack Cocaine must be reported in either Metric or Standard.
* Agency can choose to report either metric or standard measurements on a case by case basis.
* Metric and Standards measurements can not be used together in a single incident.
Aggravated Assault/Murder Circumstances

All Homicides and Aggravated Assaults must have Circumstance categories which indicate the general circumstances surrounding the incident.

- Circumstances should be based on the findings of a law enforcement investigation and not the decisions of solicitors, coroners, juries, or other agencies outside of law enforcement. Use these codes to describe what happened or why the crime occurred.

Up to two (2) categories can be used for each Aggravated Assault or Murder victim:

Argument (over money, property, general arguments, etc.)
Assault on Law Enforcement Officer
Drug Dealing (turf battles, rip offs, other matters related to dealing drugs – not simply having or using drugs)
Gangland (organized crime)
Youth Gang (“street” gang activity; gangs primarily juveniles or young people)
Lover’s quarrel (over sex, romance, marriage; includes homosexual lovers; often involve 3rd parties)
Mercy Killing
Other Serious Crime Involved (such as Robbery, Rape, B&E, Vehicle Theft, etc.)
Other Known Circumstances (circumstances are known, even though the motive may not be clear)
Unknown Circumstances (department can not determine anything about why it happened or surrounding circumstances)
Institutional (occurred in prison, mental hospital, etc. where inmates are not free to leave on their own)
Drive By/Sniper (sometimes associated with Drug Dealing)
Justifiable Aggravated Assault/Justifiable Homicide Circumstances

These categories will be determined by the investigation.

Select one category for each Victim:

Criminal Justifiable Killed or Assaulted by Private Citizen During the Commission of a Serious Crime.
Criminal Justifiably Killed or Assaulted by Police Officer in the Line of Duty.

Additional Justifiable Aggravated Assault/Justifiable Homicide Circumstances

To further describe the circumstances of a Justifiable Aggravated Assault or Justifiable Homicide, use one (1) of the following:

Criminal attacked Police Officer and that Officer Killed/Wounded Criminal
Criminal Attacked Police Officer and Criminal Killed/Wounded by Another Police Officer
Criminal Attacked a Civilian
Criminal Attempted Flight from a Crime
Criminal Killed/Wounded in Commission of a Crime
Criminal Resisted Arrest
Unable to Determine/Not Enough Information
Police Assaults (LEOKA) – Type Activity:
Report the type of activity the officer was engaged in at the time of the assault or murder.

Responding to Disturbance
Burglaries in Progress/Pursuing Suspects
Robberies in Progress/Pursuing Suspects
Attempting Other Arrest
Civil Disorder
Handling or Transporting Prisoners
Investigating Suspicious Person
Ambush
Offender mentally Deranged
Traffic Stops, Pursuits
All Other Activity

Police Assaults (LEOKA) – Type Assignment
Report the type of assignment the police officer was on at the time of the assault or homicide.

Two-officer vehicle
One-officer vehicle, alone
One-officer vehicle, assisted by another officer
Detective or special assignment, alone
Detective or special assignment, assisted by officer
Other, alone
Other, assisted by another officer
