Representative Wm. Weston J. Newton, *Chairman*  
House Judiciary Committee  
512 Blatt Building  
Columbia, South Carolina 29201

### **Sexual Assault Kit Tracking System Semiannual Report**

In accordance with S.C. Code Ann. § 23-3-1300 (H.3309), the South Carolina Law Enforcement Division (SLED) hereby submits its semiannual report. By way of background, Governor McMaster signed Act 134 (H.3309) into law on May 19, 2020. The stated intent of the Sexual Assault Kit Tracking legislation is “to further empower survivors with information, assist law enforcement with investigations and crime prevention, and create transparency and foster public trust.” *See* Act 134 (H.3309).

S.C. Code Ann. § 23-3-1300 mandates that SLED submit a semiannual report containing data from the sexual assault kit tracking system. Accordingly, attached is a report which details statewide sexual assault kit tracking system statistics. *See* S.C. Code Ann. § 23-3-1300(E). For context, it should be noted that Track-Kit™ went live on December 11, 2023, and the statistics on page one of the attached report are reflective of data entered from that date through January 28, 2026. Additionally, the statistics on page two of the attached report represent the most recent reporting period, specifically covering July 31, 2025, through January 28, 2026. The data in this report shows that there are currently 4013 sexual assault kits in Track-Kit™, 661 of which were entered in the last six months. Additionally, the data also shows that forensic analysis has been completed on 757 sexual assault kits since Track-Kit™ went live, 273 of which have been completed in the last six months. Finally, the remaining pages of the report contain data specific to the 237 law enforcement agencies enrolled in Track-Kit™.

It is also noteworthy that SLED and InVita Healthcare Technologies continue to collaborate to enhance the effectiveness of Track-Kit™ for its various user groups. To that end, eight Track-Kit™ refresher training webinars, to include two advocate sessions, were held during August and September of 2025 for stakeholder groups. Moreover, Track-Kit™ updates will be provided during an upcoming SANE training in March and the State DNA lab meeting in March. To ensure awareness and encourage participation, SLED continues to communicate with stakeholder groups regarding all training sessions and updates.

In conclusion, SLED will continue to work together with its stakeholders throughout the State to fulfill the purpose of this important legislation.

Sincerely,

Mark Keel  
SLED Chief
